Re: Podcast.

Dear Ms. Whiteley,

We want people to know that we are not just saying what we believe people want to hear. For real, we truly are speaking from our hearts. That we desperately miss our family, friends, and jobs. They have made leaps and bounds at changing their lives for the better. They pray for forgiveness within themselves as well as others. They are extremely remorseful for the actions that took the life of someone's loved one. Not because they are in such a awful place. But, because their actions are unchangeable. Believe, that if at all possible they undoubtedly change places if given the opportunity. My family, friends expressed how hard it was listening to how good everyone's lives were. And then realizing how bad their lives have become. It's not just inmates who are doing time in prison. Everytime we call family, friends they hear our pain. Family, during hard time and struggling themselves. They want to send money - so that the basic's can be provided. Everyone (family, inmate) deserve a second chance. God's blessed be, that everyone will have healing hearts and souls. Thank you for all you do. You can do what ever is need to enlighten everyone Be safe, Be happy, Be healthy
Respect Fully
Jean Saxon
